album, search, streaming play & many more.

Technology Stack

Swift, Storyboards, Xibs, Auto layout, CoreMusic,
Audio, background

Life.Church

Life.Church is an app that pushes itself to always be on the cutting edge of its industry. When it comes to “the church” there is a lot of tradition and push back that they had to overcome. But culture demanded a better solution to all things church, and they delivered. This platform is not a replacement to in-person connections, but a way to reach more people in more places.

<https://apps.apple.com/us/app/life-church/id1014635777>

Support

iPhone and iPad

TapGo!

The ultimate reflex test! Tap correct circles to gain points, use game changing power-ups, unlock brand new themes and compete against your friends and the rest of the world to get the highest score!

<https://apps.apple.com/us/app/tapgo/id1451954119>

Worked as a Supporting developer

Support

iPhone and iPad

Features

Gaming, Animation, Music, Vibration, Colors, Ads, In-app Purchase, Themes, Scores, Themes

Technology Stack

Swift, Storyboards, Auto layout, Core Animation, Maths, Haptic feedback, System Sound, Game Center

Other Projects

There are many more small projects that aren't mentioned above. Some other private enterprise apps as well, that are not publicly available instead, distributed on the personalized server! Some of the apps renamed or expired on the AppStore.

Worked in many projects in some modules or as a supporting developer.

Solved many issues of different project teams and of worldwide communities like StackOverflow.

Developed many reusable classes, libraries and boilerplate code for my self that can be used in future work and can also be helpful in boosting delivery speed.
